VOL. LXV

OAKLAND, CALIFORNIA, SUNDAY EVENING, APRIL 22, 1906

NO. 53

HORRIBLE CRIME OF A REGULAR SOLDIER!

A United States Soldier, a sentinel on duty last night, outraged a young woman in San Francisco, using his gun to enforce his demands and to intimidate her terror-stricken relatives.

SAN FRANCISCO, April 22: An infamous crime, an outrage of the most bestial character, was perpetrated last night by a United States regular stationed at the corner of Bush and Scott streets. The victim was a respectable young colored woman residing with her relatives at 2507 Bush street, whose name is not given for obvious reasons. The offense was repeated twice between 9 o'clock in the evening and 1:30 in the morning, the

brutal miscreant in uniform using his gun to enforce his bestial demands and intimidate the other members of the family.

OCCUPANTS OF HOUSE.

The house at 2507 Bush street is occupied by Joseph Dennis (colored) one of three well known brothers, who is employed as a porter by the State Board of Harbor Commissioners. Edward Dennis, another brother, is messenger for William J. Dingee, president of the Contra Costa Water Company, and A. L. Den-

nis is the proprietor of a saloon in West Oakland. With Joseph Dennis resides his aged father, four aunts, each over 75 years of age, a young nephew, and the young woman so frightfully maltreated by a beast wearing the uniform of the United States army. All the inmates of the household agree in the following statement of the outrage.

SOLDIER'S DEMANDS.
About 9:15 in the evening a soldier on duty on the corner of Bush and Scott streets came to the house accompanied by two men in plain clothes. The soldier demanded all the matches in

the house, and when these were given demanded to be shown the inmates of the dwelling. He then went out, but almost immediately returned and demanded with obscene threats to be shown the room occupied by the young woman in question. Then he warned Joseph Dennis that if he interrupted the hellish deed or any outcry was made by any member of the family he would run his bayonet through the young woman's black heart. He threatened to shoot Dennis if he interfered, and said he would slay-

the aged relatives of Dennis if the latter attempted to leave

the house to give an alarm.

REPEATS OUTRAGE.

Then the uniformed wretch left the house in darkness, only to return at 1:30 o'clock and repeat the outrage, the circumstances of which were substantially the same as the first, saving that the soldier supplied Dennis with matches to light the dishonor of his own home.

NOT IDENTIFIED.

In the darkness and excitement the inmates of the household failed to take note of the regiment and the company to which the soldier belonged. As they are not familiar with the

markings which distinguish the different branches of the service they do not know whether he belongs to the infantry, artillery or cavalry. For a wonder, the miscreant did not loot the house. It should be easy for the officers at the Presidio to ascertain the identity of the unspeakable ruffian who perpetrated the outrage. The soldier stationed at the corner of Bush and Scott streets from 9 till 2 o'clock last night is the man, and the sentry details should be sufficient to identify him.

AN INVESTIGATION.

The matter will be laid before

Brigadier General Funston in the belief that that gallant soldier will immediately take measures to bring the scoundrel to prompt punishment. Under military law the penalty for the offense is death, and it is a punishment none too severe when the circumstances are considered.

DEMAND JUSTICE.

The Dennis brothers have many influential friends among the white people of San Francisco and Oakland, who will spare no effort and leave no stone unturned to bring the beast who has disgraced humanity and dishonored

the uniform of the United States.

GOVERNOR PARDEE SAYS

"The situation is as good as can be expected considering the greatness of the calamity that has befallen us. The nation and world is taking great interest in our welfare and is showing material and financial aid. Although I am considering the advisability of calling an extra session of the Legislature, I have not yet taken any action. What we need especially is medical stores, clothing, and shelter for the refugees. Of course food will be needed in considerable quantities for some time to come. An epidemic does not exist at present and it is not probable that there will be any necessity for ordering a quarantine. The work of rebuilding San Francisco has commenced and I expect to see the great metropolis replaced on a much grander scale than ever before."

PHYSICIAN IS SHOT THROUGH HEART

SACRAMENTO, April 22.—Governor Pardee issued the following proclamation declaring two more legal holidays: "In the interest of the public welfare, I, George C. Pardee, Governor of the State of California, by virtue of the authority vested in me by the Constitution and the laws of this State, do hereby appoint, designate and declare Monday, April 23, 1906, and Tuesday, April 24, 1906, as public legal holidays."

MANY PEOPLE BECOME INSANE AS RESULT OF EARTHQUAKE.

Twenty-seven insane persons have been received at the Receiving Hospital since the earthquake. Some of them were very violent. Numbers of them, now dangerous, have been released. One man has been brought in nine times. He is a young man, apparently thirty years of age, light-haired and complexion, and shaved clean. He is looking for a book and has children, he says, but his identity cannot be learned. He had no coat when first taken, and the Receiving Hospital gave him one. There were no papers on him to indicate his identity.

SAN FRANCISCO HAS RESUMED ACTIVITY

GOVERNOR IS RECEIVING THOUSANDS OF MEN AT WORK, CARS ARE RUNNING, MARKET STREET IS NOW CLEARED

There have been two files of people extending from the city hall round the corner to the corner of Fifteenth street and San Pablo avenue, since early morning seeking passes to San Francisco from Governor Pardoe, General Lauck and Mayor Mott.

Telegrams have been pouring into the headquarters all day tendering money and provisions or asking for information as to how the senders may aid the unfortunate of San Francisco.

Dr Louise Harvey Clark sent in a telegram tendering her services for relief work in any capacity needed. The offer was referred to Major Schmitz.

ABERDEEN'S OFFER

The following telegram was received from W. R. McFarlane president of the Chamber of Commerce of Aberdeen, Washington:

At the suggestion of Governor Meade of California, the chamber settled upon a central point for ships to San Francisco for such supplies as will be offered by the people of considerable distance in the vicinity of this city. I am advised that railroads are congested and that shipping is slow to San Francisco. Will you kindly advise the volunteers in this vicinity how to offer large contributions of supplies, clothing and lumber sufficient to have a vessel of 400 or 500 tons. Can you send a vessel here for the contribution? The steamer *Centralia* does not leave San Francisco Sunday. Is about the best vessel available. If the *Centralia* can not be used, send another vessel of about her capacity. A quick answer is essential.

Governor Pardoe answered that it would be preferable to have the people up north take charge of the whole matter.

AS TO SPECIAL SESSION
FOR MANSON April 22.—General Webb and Judge Black, members of the committee, went to Oakland to see about calling a special session of the Legislature. Do not issue proclamation until they see you. Wire me when to make appointment with you then.

"G. ROLLET."
"Relief Ferry Depot."

The question of a special session of the Legislature is one to which Governor Pardoe is giving considerable attention in a quiet manner. It is known that the Legislature has not been convened since the earthquake. An impression obtaining that a call of the kind referred to will be issued some time this week or early next week, but no one knows the time exactly.

CONGRESSMAN KNOWLAND.
The following gratifying information came from the Congressman of the Third District:

WASHINGTON, April 21.—Governor George C. Pardoe, Oakland Cal., has just voted an additional million dollars. We all have great faith in California's future.

"J. R. KNOWLAND."

TEHAMA'S GIFT.
TEHAMA, April 21.—Military Secretary. First section relief train leaves Tehama 4:30 this a.m. It will arrive in Oakland at 4 p.m.

"KOBES."

IN ORANGE COUNTRY.
RIVERSIDE, April 21.—Riverside's relief fund now stands at \$70,000. Shirts send money or car of provisions. If provisions what is most needed? Would 100 or 200 boxes of lemons be useful?

"P. CLARK."

An answer was sent to the effect that that money would be preferred, but that anything would be acceptable.

SAN FRANCISCO, April 22.—With the street cars on Fillmore street running and Market street free from debris, this city presents a decidedly more business like and cheerful appearance.

All day yesterday pedestrians were compelled to move bricks aside, but today the work of clearing the street is being carried on by the employees of the street department. Several gangs of men were at work not only on Market street, but on the adjacent streets.

By Tuesday night the business portion of the city will be as nearly easy of access as it was before the fire. Before the middle of next week is reached there will be 5000 laborers at work clearing the streets.

HOPEFUL SIGN.

One of the most hopeful signs is the fact that the United Railroads has a large force of men at work repairing the tracks where they have been warped by the fire or bulged by the earthquake. At the corner of Mission

and Seventh streets, where the earth sank away from the New Post Office for a distance of four feet, a gang of men are at work leveling the earth and straightening the tracks. In a dozen other places the employees of the railway company are at work and the sight is a pleasing one. It relieves the eye and the nerves, after having seen the miles and miles of desolation, the fact that there is life again in the heart of the city brings a sense of restfulness and encouragement.

MORE MARINES.
In response to Governor Pardoe's call the marines of the U. S. Cruisers Chicago and Marblehead were rushed ashore this morning and placed along the water front. When the remainder of the Pacific squadron arrives, patrols will be established to prevent looting and thieving. With the addition of the 6000 marines to the regular police force and the U. S. soldiers, the whole of San Francisco can be thoroughly policed.

RELIEF WORK IS PERFECT.

There is no suffering from hunger in San Francisco. The organization of the relief work has been perfect. Food in any quantity, including bread, milk and canned meats may be had. Three additional bakeries started last night and are supplying bread today.

SANITARY CONDITIONS.

The sanitary conditions are occasioning some alarm but within the next few days provision will have been made for comparatively good sanitation and it is thought that epidemic will be prevented from breaking out in the tented villages of the homeless.

THE CALM AFTER STORM.

The dreary waste which no pen can picture was pardoned by a calm for the first time since the earthquake. There were no dense volumes of smoke rising to heaven nor were there any crackling or roaring of flames to distract the Sabbath. The calm will be broken tomorrow, however, when unprecedented activity will break forth. Within a week 50,000 workers will be in San Francisco.

MARKET STREET ACTIVE.

Market street is a very busy street. Automobiles filled with nurses, physicians, soldiers and members of the Regular Corps go whizzing along the thoroughfare at a speed ordinance. From one end to the other of the street there is a constant coming and going of wagons containing provisions and supplies. The fact that there is life in the midst of the magnificent ruins has given every one hope.

RELIEF WORK IS PERFECT.

There is no suffering from hunger in San Francisco. The organization of the relief work has been perfect. Food in any quantity, including bread, milk

ASKED IF SHE WAS DECENT

SAN JOSE A WRECK

RELIEF FROM THE NORTH

DAMAGE IS GREAT

A. L. Hawley, of Seattle, who has arrived here to take charge of the distribution of relief funds and supplies sent by the State of Washington, received a dispatch to-day stating that three carloads of goods for the homeless San Franciscans have been sent from Seattle.

The dispatch received by Hawley states that the steamer Buckman sailed from Seattle last night with 1100 tons of supplies. The first shift of cooks were sent with the Buckman to prepare the food. Additional shipments will be sent to-morrow on the steamer Queen. Other shipments will quickly follow.

The cargoes that have already been sent include groceries, hardware, clothing, bedding, blankets, tents, drugs, carpenter's tools, tinware, stoves and cooking utensils. Hawley has been asked to suggest anything additional that is required.

According to the telegram received by Hawley, the cash relief fund collected in the State of Washington exceeds \$125,000. The work of collecting money and goods is progressing vigorously in the northern State.

The shock came to San Jose exactly at 6:15:17 according to the electric clock in the St. James Hotel, which was stopped. Supreme Court Clerk Jordan and myself were on the fourth floor of the hotel. The shock only disturbed my nephew, who commanded sailing out. The ceiling began peeling off in great chunks. The chimney fell and made a great hole in the roof. We immediately made our way out and down to the street.

"The streets were filled with people, dressed and undressed, who were running about distractedly.

LEVELLED TO GROUND.

"The east end of the Vendome Hotel, a three story structure, had fallen in, and some of the guests had to be dragged out of the ruins. My nephew, Thomas Gilroy, was carried into the street.

"There is not a brick or stone building of two stories or over in San Jose today that has not been leveled to the ground or that will not have to be torn down.

"Flames broke out, but the firemen soon had them under control.

"I hired an automobile at 7 o'clock and started for Agnews with two or three of the visiting sheriffs.

"The sight was awful. Scores of insane persons were running about the grounds, unwatched and uncared for. I helped to take out the body of Dr. Kelly, the assistant superintendent of the asylum, who had been instantly killed.

"When I left there at noon for San Jose with the intention of securing a company of the national guard to go out to the asylum, but the sheriff of Santa Clara had sworn in several hundred deputies and several of these went out at once to take charge.

"San Jose is under martial law and the city is thoroughly patrolled by the militia. Those that died were all residents of the town. Of the many visitors of the Royal Arch, sheriffs and supervisors a few only received slight injuries.

"After getting away from San Jose I saw evidences of the earthquake at Niles and even as far as Livermore, in the shape of fallen chimneys and broken glass."

EXPRESSES GRATITUDE FOR HELP TENDERED

F. W. Fergo, a veteran of the Franco-Prussian war and for some years lately a night watchman at a hotel in San Francisco, who lived at 1617 Mason street and is now with new-made friends at 1745 Linden street, Oakland, cannot find words that satisfy him to express his appreciation of the kindness of the people of Oakland.

"Why," said he Saturday, "my poor wife, 67 years old, and I were walking along the street as best we could when a lady drove up along the walk in a carriage and said to my wife, 'Get right in here and come home with me.' It seems to me I never saw people so nice as the people of Oakland in all my life. Now if I can only get work."

SACRAMENTO, April 22.—Santa Rosa, in proportion to its size, has suffered worse than San Francisco. Mr. Griggs, who is in the employ of Weinstock, Lubin & Co., has lately arrived from Santa Rosa, and his plain and uncolored story sufficiently proves the seismic fury which has practically reduced the city to a ruin.

The list of dead from Santa Rosa now numbers about 60, but a great number of persons are missing and a still greater number are more or less seriously injured.

As in the case of San Francisco, an admirable organization has the situation well in hand. Forty sailors from Mare Island, fully equipped with apparatus are at work, while volunteer aid has been unstinted. Santa Rosa has suffered the greatest disaster in her history, but the indomitable spirit of her people has been shown all along the line. Even so early as Friday an announcement was made that the public schools and the business college would open as usual on Monday morning, the buildings having been inspected and found to be safe.

CAUGHT IN RUINS.

C. O. Duffy, from Owensboro, Ky., was a survivor from the wreck of the Santa Rosa Hotel, but he was one of the number that was caught in the ruins of the fallen building. Although entirely hidden from view beneath the debris, Duffy managed to signal to the rescuers and was finally dug out. In relating his miraculous escape he said:

"When I registered at the Santa Rosa Thursday night there were nearly eight people in the hotel altogether. When the crash came during the awful earth-quake none could escape. As I staggered about the room, trying to reach the door to the hall, I soon realized that there was absolutely no hope. But I literally dived alongside a big mahogany bureau in the room and when the timber, lath and plaster came down I was fortunately left in a three-cornered place of comparative ease, for the timber and debris did not rest on me heavily.

"I could barely breathe and when I heard the rescuers talking above my head I secured a lath which I forced with much effort through the debris and this I waved about until they took notice. And they were quick to the rescue. I could not have lasted much longer."

"Coming through Petaluma, I was surprised to note how little damage was done there. It did not seem to be over \$300."

CAMPED IN FRONT OF THE MINT.

Mrs. L. C. Winchell, formerly of Excelsior rooming house and Mrs. M. Gordon, 1021 Market both elderly ladies are comfortably camped under the porch of the U. S. Mint awaiting to learn whereabouts of relatives.

BUSY TIME AT POSTOFFICE

Announcement is made by Postmaster Dargie that all outgoing mail is being dispatched per schedule. The trains are running on all of the lines and everything possible is being done to facilitate the mail service.

Great quantities of registered mail was shipped under guard to San Francisco.

In San Francisco mail is being delayed in the districts which were not touched by the fire.

On Tuesday San Francisco postoffice registered and mail order department will be working order.

All mail addressed to San Francisco will be dispatched there until the addresses are changed.

In the post office there has been a general delay all day to-day. Stamps are being sold and the regular force, with an additional number of clerks, is doing everything possible to relieve the congestion.

"The carriers are to be put on, and under the present working plan the mail will be quickly dispatched."

CAMPED IN FRONT OF THE MINT.

Mrs. L. C. Winchell, formerly of Excelsior rooming house and Mrs. M. Gordon, 1021 Market both elderly ladies are comfortably camped under the porch of the U. S. Mint awaiting to learn whereabouts of relatives.

definite advice will be given during to-day.

GREAT AND EFFECTIVE ORGANIZATION IS PLANNED FOR RELIEF OF ALL REFUGEES

By RAY TAYLOR

To clothe the naked and feed the hungry of this city a great and effective organization is being systemized. The distribution of food supplies pouring into the city is being handled in a variety of ways. The city authorities, in conjunction with the civic organizations, have a perfect commissary department working, and the supply of food and other necessities is the only thing to be looked out for.

A committee consisting of Judge W. S. Wells and Councilmen Pendleton and Elliott were sent out to make a special investigation into the food supply of the city, and find that while no one at present is hungry, there is

only about eight hours' supply of food on hand. The committee in reporting upon its investigation states that there is not so much necessity for cooked foods now as the staples, such as flour, beans, meat, vegetables and articles that can be cooked.

The various fraternal organizations are doing a great work, and on one bill board appear notices of where the headquarters of the G. A. R., Masonic Relief Bureau, the A. O. U. W., Sons of St. George, Royal Arch Masons, F. A. Knights of Columbus, Ibelekins and Fraternal Brotherhood, may be found. These organizations are doing

individual relief work, and foremost and to the front is the local lodge of Elks.

This organization has established a camp on Adams Point, in which it now has 1,000 people. The tents are regularly laid out in sanitary fashion.

There is a kitchen, a hospital, a

quarantine tent for any suspicious case, a

corps of four nurses and a doctor. The sanitary conditions are perfect.

There are other camps at Ma-va

Park, Shell Mound, Oak Park, a Chi-

ness camp at the Willows, an Indian

camp at Fifth and Linden, and others

at Fruitvale and Alendale.

United States Secretary Shaw is taking great interest in helping to resume business. He is writing instructions to superintendent Leach of the Mint and the sub-treasurer that will give abundant money, pending the opening of the vaults in the demolished banks.

There are signs of resumption of business activity in several places to-day. Men are clearing streets; cleaning bricks, one Oakland man has a sign out on Market street. "Safe opened."

The Mint whistle blew as usual to-day.

The secretary and director of the Mint send very complimentary thanks to superintendent and men for their work in saving Mint building.

GOOD WORK

DEMANDS \$100 TO MOVE CAR

As an example of the outrageously exorbitant prices charged by many San Francisco automobileists for the use of their vehicles, it is stated that a chauffeur conducting car No. 5498, from San Francisco, and which he had brought over here for hire, refused to move his machine to start for any destination whatever unless given \$100.

Such conduct should result in the seizure of the cars by the police or military.

CENTERVILLE

STILL STANDS

CENTERVILLE, April 22.—Reports sent out from here of the fire early yesterday were greatly exaggerated.

Only three buildings were burned and these were wash houses. The loss is not more than \$10,000.

FIVE CHILDREN BORN AT HOSPITAL

SAN FRANCISCO, April 22.—Five children were born last night in the maternity hospitals that have been established at Golden Gate Park.

THEATRICAL PEOPLE.

The theatrical people of Los Angeles have sent Louis G. Stevenson, assistant manager of the Los Angeles Examiner, money to assist their destitute fellow professionals. Apply Examiner, Oakland office.

Marie Forrest, would notify E. B. Louisen she is safe at Guerneville, Cal.—please come there.

Building and Loan Commissioners have opened a temporary office at room 221 Sycamore Building, where all officers of the Building and Loan Association are requested to report.

Building and Loan Commissioners

CITY TREASURER'S MONEY FOUND SAFE

SAN FRANCISCO April 22—A squad of men that has been working in cleaning away the debris at the city hall reached the treasurer's office and found the vaults all locked and the coin apparently safe as the handles on the doors had not been touched by the fire. The voting machines are all destroyed as well as the books.

A singular feature of the fire is that the shirts of the engineers that had been left hanging in a room near the treasurer's office were in the same position as they had been left.

WILL INVESTIGATE EXTORTION

MAYOR OBJECTS TO GALLING OFFENSE OF UNREASONABLE RAISE IN PRICES.

This morning several complaints were made to Mayor Mott that certain dealers in this city were increasing the price of meat, groceries and provisions and that

others refused to sell even to old customers save on the presentation of ready cash.

His honor stated that dealers could not be forced to sell on checks but he would at all events have a subcommittee investigate the offense.

The committee should find them to be well founded he would take some action to save people from being oppressed in this peculiarly galling manner.

HARRIMAN WILL SPEND MONEY.

OMAHA, April 22—E. H. Harriman president of the Union Pacific Oregon Railway and Navigation Company and the Southern Pacific today authorized the expenditure of \$200,000 in relief work in San Francisco. In addition to this all the above roads will haul relief supplies for the city and in many cases they will be forwarded on passenger trains with expeditious service.

FRESNO ACTS.

FRESNO, April 22—Governor Pardee will send committee of three tonight representing us to assist in distribution and to devise ways and means for relief. They will arrive tomorrow morning. Render them all possible assistance.

A resolution presented by Mr. Morgan at the request of the Secretary of War making the money appropriated by the resolution passed yesterday for the relief of San Francisco sufficient available for the purchase of medical supplies as well as for subsistence and quartermasters supplies was also passed.

BERKELEY April 22—A fearful experience in the temblors that resulted in the ruin of San Francisco is related by A. D. Adams of Sioux City, Iowa. His wife and infant child were killed by falling walls and he barely escaped with his life.

At the time of the earthquake Mr. and Mrs. Adams were asleep in their apartments in a Folsom street lodging house.

The first thing that I knew, said Adams, was when the walls of our room suddenly parted. My wife and little child were thrown out of bed and down on to the sidewalk, where the wife was killed by falling bricks. I attempted to save them but was rendered unconscious by the falling debris.

When I awoke I was in a park, and was informed that my wife and child had been found dead on the sidewalk where I was picked up.

Adam is occupying a tent among the refugees encamped on the State University grounds.

CONVENT WILL OPEN MONDAY.

The Convent of Our Lady of the Sacred Heart on Webster street, Oakland, has been examined by city inspectors and pronounced perfectly safe. Classes will be resumed on Monday, April 23.

The following are being given shelter at the Convent.

Mrs. McPhillips and two children, Mrs. K. T. Dodge, Mrs. Kruse, Mrs. G. Gruss.

Mrs. Johnson, nurse to an old lady who is paralyzed, was sent to 1662 Webster street.

KIMBERLY HEARD FROM.

KIMBERLY, April 22—Mayor of San Francisco: Kimberly Americans express sympathy over terrible distress. Cable relief fund is started.

WILLIAMS, Captain, Kimberly, Calif.

American Council, Kimberly, Calif.

The retail price of

Log Cabin Bread and Buttercup Bread
is **5** CENTS ONLY

Please report any attempt of any dealers to charge a higher price to our Office 1723 SAN PABLO AVENUE. Phone Oakland 1118 and we will not supply them further.

LOG CABIN BAKERY.

DOGS ARE EATING THE DEAD BODIES ARE NOW IN POVERTY

SAN FRANCISCO, April 22—One of the saddest incidents of the fire of Telegraph Hill Friday night was the abandonment of two babes, about one and two years of age by their terror-stricken mothers.

The two infants were found within a block of each other this morning on Union street, where they had fallen from the arms of their parents.

Both children were fully dressed, but the flight for life down the blazing hill was begun too late for safety.

A woman's charred remains were found about fifty feet from one of the babes, and it is assumed that this was the mother. Her remains were charred into an unrecognizable mass.

The remains of the two infants will be buried in Washington Square, where twenty others lie buried.

The remains of an unknown man were recovered from one of the bakeries in the vicinity.

The soldiers have received orders to shoot all stray dogs in the vicinity. Some of the poor beasts were made mad from the horrors they went through in common with the human beings while others, to appease their hunger, attempted to eat off the dead bodies.

There is much suffering from thirst and hunger in this district. There is neither food nor water.

The relief corps are however, rushing supplies to this section and before nightfall there will be none that are hungry.

FEARS HE PERISHED DESTROYED

R. S. GEE of the Alameda Elks Relief Committee tells some pitiful stories of cases that have come under his notice.

One woman Mrs. F. J. Laddie who is now at Mr. Gee's home at 1532 Verdi street, Alameda was with her husband and mother in their home on the Anselmo House on Turk street near Van Ness avenue. Her husband and father did not take the two table aged and a child down the stairs and made their escape. When they reached the front door a man called to let in to run for her life that they were about to dynamite that building. She ran for a block and on looking back saw the house that had exploded. She has no idea whether her husband and father were saved and she is almost insane from the shock. Her parents' name was Mc Gee.

Mr. Gee also tells of a woman who came to the Lida camp with two little tots clinging to her skirts and a baby in her arms that had been dead for thirty six hours.

One boy was born in the camp yesterday and apparently will live. His mother too is doing well.

Mr. Gee states that every child brought into camp is given a bath. One Italian girl screamed and shrieked at sight of the water and when asked why she said "Oh you mustn't touch him that was. He's never had any water on him before."

Mr. Gee also tells of a woman who came to the Lida camp with two little tots clinging to her skirts and a baby in her arms that had been dead for thirty six hours.

OFFICE TO PUBLIC

It has been called to the attention of
the public that hundreds of people are
now in San Francisco, not merely our
countrymen, but also those of other
countries, of San Francisco are be-
ing fed, housed and distributed in
the most comfortable manner. It is
a little difficult to find them, as
they are scattered all over the city.
The rooms will be placed at the dis-
posal of visitors and the Chamber of
Commerce hopes they will be utilized
to the full extent.

It is therefore requested that only those peo-

ple who have urgent and important busi-

ness in San Francisco go there and that

others remain at home.

Those persons whose relatives are

abroad will visit another day. It is prac-

tically impossible to find them, unless

their exact addresses are known and a

register is now being compiled and the

addresses of all persons who have been

in San Francisco will be published in

the paper at the earliest possible date.

For this is done the location of rela-

tives and friends will be facilitated and

lost ones will be more readily found.

Those people who can afford to go

to San Francisco should provide them

with a full stock of supplies and should be

as far as possible.

It is no occasion for people to at-

tend to the wants of their relatives. It is

more than all persons have done

in the past.

It is the duty of the agent of the

Chamber of Commerce to

see that the public is

assured of our best attention to

all inquiries and orders of which we trust

you will give us liberally we are

very grateful.

FINANCIAL OUTLOOK ENCOURAGING

By JOSEPH E. BAKER

The most pressing need at this time is money for the purchase of immediate necessities.

As the banks are all closed, and will remain closed till the Bank Commissioners and the State Clearing House Association have perfected a plan of financial adjustment which will meet requirements and protect all interests there is a great deficiency in circulating medium. The money in the pockets of the people is rapidly passing into the hands of the food supply stores, restaurants and street car companies, as retail business has been placed largely on a cash basis.

The money order department of the postoffice affords little relief

in this exigency, as there are no Government depositories in Oakland or San Francisco through which the postmaster can draw to cash orders. Therefore the express companies must be looked to mainly for immediate relief.

For comparatively small sums registered letters are available, and postal notes are handy.

However, if it can be arranged to have deposits made in the sub-treasuries at New York, Boston, Philadelphia, Chicago, St Louis and New Orleans paid out by the San Francisco Mint on telegraphic order, the situation will be relieved and a flood of cash let loose for immediate circulation

This device will remove the temporary stringency without derangement to business and finance, generally speaking, and without the embarrassment that would be caused by a premature opening of the banks.

It can be positively stated, however, that no matter what happens a way will be found to place within a day or two a considerable quantity of ready money in circulation to meet pressing emergencies. The Bank Commissioners and bankers are acting in concert to provide temporary relief in a way that will not create financial confusion or business derangement.

In the meantime it is gratifying and reassuring to learn that the Bank Commissioners find the banks throughout the State in excellent condition and in splendid shape to meet all demands upon them. The assured safety of the

contents of the vaults of the burned banks inspires the conviction that the San Francisco banks are entirely solvent and consequently will not be a menace to the stability of their correspondents in the interior. This determines in advance the delicate question of adjusting balances. There is nothing for the interior banks to fear since it has been ascertained the San

Francisco bank vaults are perfectly secure. Nevertheless the public must be patient and conservative for a brief period because the burned bank vaults cannot be safely opened till they have had time to

cool and be bored to release heat-burned air. Premature opening would probably result in the combustion of millions of gilt-edge securities besides other valuable papers. All the tangled skeins must be gathered up and straightened out before we can begin weaving the business web in the regular normal way.

At present the business and financial situation is abnormal and must be dealt with in an abnormal manner. The measures for temporary relief must be adapted to the peculiar conditions existing and to the end in view,

and must necessarily be subordinated and governed by the su-adjus ment.

prem necessity for preserving the financial balance and adjusting the monetary supply to the general needs of the entire State.

The general aspect is most hopeful, and it should inspire universal confidence. The Oakland banks, which will have to handle the clearings for the whole State for a time, are sound as a rock and possess ample facilities to meet the extraordinary demands which they will be called on to meet. They are strongly fortified to meet peculiar exigencies, and are in perfect shape to play a leading part in the financial re-

Relief
Committee

SALT LAKE CITY, April 22.—Numerous refugees are coming to Salt Lake, in which has a similar tale of horror. A typical experience is that of Sam Wolf who says:

"My two kids in the Grand Hotel when I awakened this morning was shaking as a leaf would shake a rat. I was scared to death for the street where I live is like waves of water. I ran down Market Street the whole side of a building fell out and came so near me that I was covered and blinded by the dust. Then I saw the first dead body. They were piled in an automobile like carcasses in a butcher's wagon. All over blood with crushed skulls and broken limbs and bloody faces."

SIDESTEPS DEATH

A man cried out to me, 'Look out for that live wire.' I just had time to step over the dead. On each side of me the first wall, burning hot, I finally got into the open street before the fire. The ground was still smoking and gaping open in places."

Women and children lay on the cold asphalt and prayed God would be merciful to them. At last we got on the boat. Not a woman in that crowd had enough clothing to keep her warm let alone the money for fare."

"I took off my hat, put a little money in it and we got enough money right there to pay all their fares."

"I forgot to tell you, I saved one woman from sure death just before I got out of the hotel. She was running toward an open window and I caught her as she was about to jump. 'Where are you going?' I asked."

"Oh I was going downstairs," she answered. She would have fallen fifty feet to the stone pavement. She followed me out on the street barefooted and cut her feet on the broken glass leaving a trail of blood behind her. The last I saw of her was on her knees begging God for mercy on her sinful soul."

THEIR ONE THOUGHT.

Charles W. Lawrence of Salt Lake said: "But one thought seemed to possess the terror-stricken people that the end of time had come."

some way the report was started that Chicago is safe, and that San Francisco had not been completely swallowed by an earthquake.

Mr Lawrence is hysterical at times and under the curse of a rat in P. H. Dukowitz and wife of Philadelphia had hurriedly escape him and now live in Salt Lake.

W. H. Sanders consulting engineer of the United States Geological Survey insisted on paying his bill before he left the St Francis. He says:

"Before leaving my room I made my toilet and packed my grip. The other guests had left the house as I hurried down the lobby. The steward met the clerk who had rushed in to get something. I told him I wanted to pay my bill. 'I guess not,' he said. This is no time for settlement."

As he ran into the office I cornered him paid him the money and got his bill stamped."

EXPERIENCES OF ADOLPHUS BUSCH.

SALT LAKE, April 22.—Adolphus Busch, the St Louis brewer who had an exciting experience in the San Francisco earthquake passed through Salt Lake City, night, over the Rio Grande, in his private railcar to St Louis.

Mr Busch and his party had rooms on the teach floor of the St Francis Hotel and when the shock came the building swayed so violently that several members of the Busch party were thrown out of their beds onto the floor. They quickly abandoned their rooms and sought refuge in the streets, two cars which Mr Busch hired and kept from Wednesday morning until Thursday morning, living sleeping and eating in these vehicles until they managed to get out of the city.

In the opinion of Mr Busch no disaster of modern times can compare with this in the extent of damage done and the wide desolation.

Walter A. Donaldson residing at 121 Clay Street, San Francisco, states:

"Straight before last Thursday evening to all of a sudden of marching at Ninth and Bush Streets. Coming up Clay was stopped by the guard, it was not allowed to continue. I was told that I had to have a pass, and was advised to go up to the court house if I had been to the court house earlier in the evening thinking that I might need a pass through the lines, but they at the court house told me I should not need one. I took the guard's advice and went right up to the court house for a pass and was issued one."

Extremely put out by not being able to get to my house that was only a block or so away I turned away muttering to myself. I was grabbed roughly and thrust down into the jail where I went without food or communication with my friends for forty-eight hours. During the night a man lying beside me died from lack of nourishment.

TO MAKE STUDY OF EARTHQUAKE.

Governor Parsons has appointed a commission of scientists to make a study of earthquakes generally and especially in California. The appointment is as follows:

The whom it may concern: The professor A. C. Lawson of the State University, together with Professor C. K. Gilbert of the United States Geological Survey, Professor Fielding Reed of Johns Hopkins University, Professor J. D. Gilman of Stanford University, Professor L. O. Leutzner of the State University, Professor George Division of the State University, Professor Charles Burckhardt of the Sanborn Observatory, Professor William Wallace Campbell of the University of Denver, Professor C. E. D. Dickey of the University of Southern California, and Dr. J. C. Schmitz of the University of Southern California, are hereby constituted a committee of inquiry into the earthquake phenomena in all parts of the State of California and the citizens of the State are hereby requested to co-operate with the committee in all possible ways, affording all necessary information and access to the results of the earthquake disturbance."

GEORGE C. PARDEE,
Governor of California.

Dated, Oakland, Cal April 21, 1906.

LIMER SENT.

J. L. Robinson of the F. and M. of Berkeley telegraphed the Masons at 10:30 a.m. to San Francisco.

A carload was sent at once.

PORT LOS ANGELES, Cal April 22.—The steamer Itauri, bound for Hamburg, Germany, put in here this morning. It is the first vessel to bring by the water route those who witnessed the destruction of San Francisco.

"The Itauri left San Francisco Thursday afternoon when the flames seemed to be at their highest," said First Mate Appen, in his description of the catastrophe.

As seen from the bay it was a sublime but terrible spectacle. We were anchored more than a mile out in the roadstead, but the wind, as it swept over the burning city and down upon us, was like the breath of a demon.

"At times it was impossible for us to remain on deck. The water of the bay became heated. The terrific concussions of dynamite and the firing of artillery along the water front by the soldiers, in their attempts to stop the flames, brought hundreds of fish to the surface. Our clearance papers were burned, but we could not retain our anchor, and late Thursday afternoon we started toward the open sea.

People Praying.

"Wharves along the water front which had not been burned were filled with people. We could see them holding up their hands in an attitude of prayer. It was the thought of self-preservation for us all that kept the course of the Itauri unchanged. As we passed through the Golden Gate the hills on each side were mountains of flame. In some places dark spots showed where the buildings had not been consumed, but they were few.

"It was at dusk when we passed out of the harbor. The waves, instead of scintillating with the rays of a setting sun, burned scarlet from first to right and then to left. At midnight we were well out at sea; I should say thirty miles. The flames were still visible, and until almost the dawn of another day we stood on deck and watched the reflection of the flames as they played to and fro on the cloud mountains which hung as a pall over the ruined city."

BREAKFAST IS SERVED ACROSS BAY.

SAN FRANCISCO, April 22.—Every person left in San Francisco breakfasted this morning on food cooked in the open streets, no fire being allowed in the houses.

A few bricks or stones gathered into the semblance of a furnace, with a few dry sticks beneath cans or kettles was the improvised kitchen in which the food was prepared.

When the human was prepared

at 10:30 last night there was no contagious or infectious disease in Chinese Chinatown. The sergeant in charge of that territory two patrolmen covering it, and Interpreter with the well known San Francisco Chinatown guide who had been pretty well over it and talked with many of the leading Chinese, met on Eighth Street in Chinatown and that was the conclusion they arrived at from information brought by each.

In the afternoon a case supposed by

a very intelligent Chinese-American student in the medical department of the University to be measles was reported by him, and at his request a detail was made from the health office to view it. This was done and the case properly cared for.

It was reported that a case of small-pox had come in the afternoon, but if so it was also immediately cared for, for at the hour first named

there were no cases of infectious or contagious diseases known to be in the section, and there was no quarantine on the Chinese quarter.

In the afternoon a case supposed by

Proclamation issued by the mayor of Berkeley.

By the authority vested in me under the laws of California, I, President of the Board of Trustees of Berkeley, considering the large number of persons at present in this town who need assistance and with the view of preserving public order, do hereby constitute a committee of safety, to be composed of the following citizens of Berkeley.

President of the Board of Trustees, President of the University of California, E. L. Parson, Frank M. Wilson, Bernard Moses, to take such measures as they may deem necessary to maintain good order, to establish and enforce sanitary regulations, and in general to safeguard the personal and public welfare of the community.

"Trainloads of provisions and supplies are being sent according to their recommendations from day to day. General stores can be furnished from here as required in unlimited quantities. Free transportation is to be furnished by the Southern Pacific Railroad and Wells Fargo Express Company. Any money surplus will be apportioned in properly credited hands."

"If the services of this committee are desired, they are at your command."

ATTENTION FORESTERS.

The entertainment and dance for April 25th, given by the Commercial and General Club, has been postponed until further notice. The tickets that have been sold will be honored at the future date set by the committee. Mrs C. E. Moon chairman.

HAYWARD, Cal. April 21, 1906.

To the PUBLIC I hereby offer a reward of \$500 to anyone who can prove or show that I have sold for cash or credit to anyone best flour for more than \$1.25 for a fifty-pound sack or \$2.65 for a one hundred-pound sack, and the return from the earth quake and fire in San Francisco began to come to Hayward; or more than regular prices for any other goods.

Also, to anyone who can show that I have allowed anyone to buy more than one barrel of flour.

JESSE H. WOOD,
Dr. Goods and Groceries.
